

Subject Index

A

Abstinence 34
 Abuse potential 273
 Acetylcholine 512
 Acoustic startle 320
 Active (REM) sleep deprivation 403
 Acute tolerance 168
 Adenosine 1, 434
 Adrenal medulla 131
 Adrenaline 131
 Adrenergic β -blockers 445
 Adrenergic system 320
 Afterdischarge 189
 Age-dependent 226
 Aggression 193, 445
 Aging 10
 Agonistic behavior 445
 Agranulocytosis 182
 Alcohol 34, 230, 479
 Alcohol intake 403
N-Allylnormetazocine 5
 α -Flupenthixol 458
 α_2 -adrenoregic receptor 342
 Alprazolam 168
 Alzheimer's disease 161, 489
 2-Amino-5-phosphonovalerate (AP5) 297
 Amphetamine 297, 334, 345, 415
 Amphetamine psychosis 217
d-Amphetamine 239, 273, 352, 372, 458
 Analgesia 207, 305
 Animal model 217
 Animal model of "mania" 198
 Animal model of schizophrenia 345
 Aniracetam 90
 Antidepressants 175, 500
 Anxiety 45, 74, 467
 Anxiolytic 25
 Apomorphine 50, 61, 297, 394
 Arecoline 512
 Arousal 40
 Arousal threshold 397
 Ataxia 1
 Atropine 326
 Attention 458
 Autism 101
 Autoreceptor 316
 Autoreceptors 96, 139

B

Baboons 268
 Barbiturate 263
 Behavior 25
 Behavior, muscimol-induced 356
 Behavioral effects 415
 Behavioral tolerance 127
 Benzodiazepam 45
 Benzodiazepine 263
 Benzodiazepine antagonist 74
 Benzodiazepine inverse agonist 74
 Benzodiazepine receptors 384
 Benzodiazepines 112, 119, 154, 305, 397, 467
 Bicuculline 226

Blood pressure 381
 BM-5 161
 Body weight 221, 236
 Bromocriptine 139
t-Butylbicyclophosphorothionate 384

C

Caffeine 1, 40
 Calcium 320
 Cannabis 20
 Cardiac output 381
 Cardiovascular activity 40
 Catalepsy 131, 288
 CCK-8 440
 Central 5.7-DHT lesions 496
 Cerebrospinal fluid 293
 CGS 8216 485
 CGS8216 305
 Children 40
 Chlordecone 320
 Chlordiazepoxide 85, 112, 119, 297, 305, 352
 Chlordiazepoxide mixtures 198
 Chloride ionophore 384
 Chlorpromazine 104
 Cholecystokinin 80
 Cholinergic neurons 288
 Chronic clenbuterol 496
 Chronic neonatal antidepressant treatment 403
 Chronic treatment 236
 Cigarette smoking 391
 Circadian 34
 Classification 297
 Clenbuterol 506
 Clonidine 342
 Clorgyline 209
 Cluster analysis 297
 Cocaine 372
 Cognition 451, 489
 Cognitive impairment 30
 Conditioned dopaminergic activity 50
 Conditioned locomotion 375
 Conditioned place reference 375
 Conditioned suppression 248, 345
 Conflict 74
 Context-dependent memory 30
 Continuous amphetamine 217
 Convulsions 226
 Corticosterone 467
 CQ 32-084 139
 Cross-tolerance 473
 Cumulative dosing 297
 Cytotoxicity 182

D

DA agonists 330
 DDT 320
 Defeat 305
 Defecation 45
 Delayed spatial alternation 334
 Dementia 489
 Dementia of the Alzheimer type 293

Denervation 254
 2-Deoxy-D-glucose 207
 Dependence 154
 Deprenyl 209, 489
 Depression 451
 Desipramine 207, 403, 500
 Dexamphetamine 198
 Diazepam 30, 168, 244, 305, 369
 Dieldrin 122
 Directly observable behaviors 297
 Discrimination 458
 Discriminative stimulus 56
 DMCM 305
 Dog 434
 Domperidone 45
 Dopamine 96, 139, 198, 217, 440
 Dopamine autoreceptor 61
 Dopamine autoreceptors 50
 Dopamine metabolism 50
 Dopamine receptors 254
 Dopaminergic neurons 288
 Dopamine-Noradrenaline interaction 458
 D-Dopa 254
 L-Dopa 334
 Dorsal noradrenergic bundle 458
 Dose level 397
 Drinking 485
 DRL 112
 Drug discrimination 5, 25, 56, 61, 67, 213
 Drug generalization 56
 Drug self-administration 268, 372
 D_1 and D_2 DA receptors 330
 D_2 receptors 96

E

EEG 434
 Electroconvulsive shock 500
 Electrodermal activity 40
 Emotionality 45
 β -endorphin 14
 Environment 451
 Environmental chemical 122
 Epilepsy 74
 Ethanol 1, 34, 193, 263, 473
 Event amnesia 244
 Excitatory amino acid antagonists 297
 Exploratory behaviour 139
 Extra-pyramidal symptoms 104

F

F 2207 147
 Facilitation 496
 Fetal alcohol syndrome 479
 FG7142 305
 Fluoxetine 285
 Fluprazine 193
 Flurazepam 500
 Food consumption 221
 Food deprivation 372
 β -Funaltrexamine 213

X

G

GABA 10, 226
GABA inhibition 74
Growth hormone 10, 342

H

Haloperidol 45, 131, 248, 334, 410
Heart rate 40, 381, 397
Heart ventricle 381
Hemicholinium 512
Heroin 14
High performance liquid chromatography 410
Hippocampal stimulation 189
Histamine 288
Holeboard 217
Housing 384
5-HT uptake 175
5-HT₁ receptor 506
5-HT₁ receptors 67
5-HT₂ receptors 67
5-HT_{1A} 25
5-HT_{1A} receptor 500
Human 397
Human subjects 20
6-Hydroxydopamine-adult lesion 356
6-Hydroxydopamine-neonatal lesion 356
6-Hydroxydopamine 342
5-Hydroxytryptamine 175, 352, 451
5-Hydroxytryptamine (5-HT) 67, 500, 506
hyperactivity 352

I

Imipramine binding site 101
Inescapable shock 122
Ingestive behavior 285
Intracerebral drug application 209
Intruder-evoked attacks 193
Isobutylmethylxanthine 1
Isoprenaline 131

K

Ketamine 297

L

Latent inhibition 248, 345
L-dopa 356
Lead 334
Learned helplessness 122
Learning 112, 512
Lithium 109, 198, 352
Locomotor activity 198, 217, 394
Lorazepam 168
Lordotic behavior 96
Loss of righting reflex 1
LY 163502 96
Lysergic acid diethylamide (LSD) 67
LY-171555 356

M

mania 352
MAO inhibition 293
Marijuana 20

Marmoset 512
Mating behavior 85
Mecamylamine 391
Memory 209, 230, 326, 363, 512
Memory impairment 20
Memory intrusions 20
Mesolimbic 440
Mesulergine 139
Methamphetamine 316
d,l-3,4-Methylenedioxymethamphetamine 268
Methylphenidate 415
Mice 161, 226, 305
Midalcipran 147
Midazolam 244, 305
Mioflazine 434
Monkeys 334
Monoamine metabolites 293, 356
Monoamine oxidase inhibitors 489
Monoamines 403, 489
Morphine 45, 56, 189, 213, 273, 375
Motor activity 496
Motor impairment 263
Mouse 288, 326, 445
MR-2266 189
Multivariate statistics 139
Muscarinic agonist 161
Muscarinic receptors 326
Muscimol 356

N

N. raphé magnus 209
Naloxone 14, 112, 119
Naltrexone 213
Naltrexone methobromide 279
l-Nantradol 127
Nefopam 273
Negative symptoms of schizophrenia 104
Neonatal 479
Neuroleptic 182
Neuroleptics 45, 101, 175
Neuropeptides 363
Neurotensin 288
Nicotine 221, 236
Nigrostriatal 440
Nociception 305
Nonreward 112, 119
Nootropic agent 90
Nucleoside transport inhibitor 434
Nucleus accumbens 458

O

8-OH-DPAT 500, 506
Ontogeny 316
Openfield behavior 403
Operant behaviour 239
Opiate antagonist 279
Opiates 112, 119
 χ -opioid agonist 189
Opioid antagonism 213
Oxytocin 363

P

Palatability 285
Parachlorophenylalanine (PCPA) 506

Paraventricular hypothalamic nucleus 279

Pargyline 209
Passive avoidance 326
Penile erection 85
Pentobarbital 297, 473
Pentylentetrazole 485
Pergolide 139
Pharmacodynamics 168
Pharmacokinetics 410
Phencyclidine 5, 297
Phencyclidine receptor 5
Phenothiazine 182
Phenylephrine 131
Physostigmine-treatment 326, 334
Picrotoxin 226
Pigeon 127, 213
Pilocarpine 512
Pimozide 239
Place preference 14
Plasma nicotine 391
3-PPP 139
Presynaptic receptors 175
Progumide 440
Provocative test 415
Psychomotor performance 369
Psychomotor tests 109
Psychopharmacology 334
Psychostimulant drugs 415
Psychotic patients 410
Psychotropic action 445

Q

Quipazine 506

R

Radionuclide imaging 381
Raphé lesions 473
Rat 14, 50, 74, 112, 119, 139, 198, 209, 239, 248, 254, 316, 330, 345, 352, 363, 403, 458
Rats 25, 56, 161, 217, 297, 372, 479, 485
Reaction time 109
Receptor supersensitivity 394
Recognition 230
Reinforcement 127, 154
Reinforcement contingencies 56
Reserpine-induced hypothermia 496
Resident-intruder paradigm 445
Reward 14
Ro15-1788 305

S

Saccharin 285
SCH 23390 394
Schedule-control 56
Schizophrenia 80, 101, 415
Scopolamine 334
Secoverine 326
Selected lines 263
Self-administration 154, 391
Selfmutilation behavior 356
Semantic memory 30
Semantic reasoning 109
Seminal emission 85
Senile dementia of the Alzheimer type 90

Sensitization 316
 Serotonin 25
 Serotonergic and noradrenergic systems 147
 Serum levels 410
 Sex differences 221, 226
 Shock 485
 Shuttle-escape deficit 122
 Sigma receptor 5
 SKF-38393 356
 Skin conductance 40
 Sleep structure 397
 Sleep-wakefulness 434
 Smoke detector alarm 397
 Sodium valproate 10
 Spatial visualization 369
 Startle 217
 Stereotyped behavior 394
 Stereotyped behaviour 50
 Stereotypy 217
 Stress 131, 244, 384, 467
 Striatum 198, 254
 Stroop effect 20
 Strychnine 226
 Subsensitivity 254

Substantia nigra reticulata 356
 Successive discrimination 119
 Sulpiride 139, 334
 Supersensitivity 254
 Supraoptic hypothalamic nucleus 279
 Surgery 244
 Syntactic reasoning 109

T

tactile stimuli 375
 Tardive dyskinesia 182
 Target biting 193
 Telemetry 34
 Temperature 34
 THC 20
 Theophylline 1
 Thermogenesis 479
 Thermoregulation 34, 479
 Tolerance 236, 473, 496
 Tranylcypromine 104, 500
 Treatment 154
 Tremor 320
 Triazolam 397
 Triazolopyridazines 467
 Tricyclic antidepressant agents 381

Tryptophan 451
 Turning behavior 356
 TVX Q 7821 25

U

U-50, 488H 189

V

Variable-interval schedules 239
 Vasopressin 363

W

Water consumption 221
 Water intake 279
 Wet-dog shaking 189

Y

Yawning 330

Z

Zimeldine 403, 500
